Regional Advisory Council Agenda
Tuesday, July 20, 2021
9:00 AM
VRT Board Room – 700 NE 2nd Street – Meridian, Idaho

*Regional Advisory Council members can participate in the meeting in-person or via MS Teams at Click here to join the meeting or by dialing in at 469-965-2358 Conference ID: 230 371 73#

I. CALLING OF THE ROLL
   Chair Walter Steed
   • Welcome and Customer/Constituent Experiences
   • Member and Committee Reports and Updates – Reports/Liaisons with Other Groups
   The website for the ACHD ADA Advisory Committee is:
   http://www.achdidaho.org/Departments/Committees/ADA.aspx

II. AGENDA ADDITIONS/CHANGES -

III. PUBLIC COMMENTS (Comments will be limited to no more than three (3) minutes.)

IV. CONSENT AGENDA
   Items on the Consent Agenda are Action Items and will be enacted by one motion. There will be no separate discussion on these items unless a Regional Advisory Council Member requests the item be removed from the Consent Agenda and placed under Action Items.
   A. ACTION: Minutes of the May 18, 2021 Meeting
   The Regional Advisory Council is asked to consider approval of the May 18, 2021 meeting minutes.

V. ACTION ITEMS

VI. INFORMATION ITEMS
   A. INFORMATION: Service Change Update
   Staff will provide an update on upcoming service changes to the Regional Advisory Council.
   B. INFORMATION: Engage Platform Overview
   VRT acquired a digital community engagement platform through a company called CitizenLab. The platform, customized for VRT, will be launching throughout the summer in three targeted geographic areas within VRT’s jurisdictional boundaries. Staff will present an overview of the project and outline ways the RAC can support ensuring high community engagement.
C. INFORMATION: Surveys and Website Accessibility Procedures  Pages 21-25  Mark Carnopis
RAC members will have the opportunity to review and provide comment on a draft of VRT procedures regarding the accessibility of online surveys and the valleyregionaltransit.org website by persons with disabilities.

D. INFORMATION: FY2021 2nd Quarter Performance Report  Pages 26-30  Leslie Pedrosa
Staff will present to the RAC the second quarter performance report for fiscal year 2021.

E. INFORMATION: On-Demand Transit Update  Pages 31-32  Leslie Pedrosa
Staff will provide an update on the on-demand transit service for Canyon County.

F. INFORMATION: Joint Executive Board and Regional Advisory Meeting Topics  Kelli Badesheim
The Regional Advisory Council will consider topics they would like to discuss with the Executive Board at the joint meeting in November. The RAC and Executive Board chairs will meet with staff over the summer to prepare a list of topics. This is the RAC’s opportunity to have input in the agenda.

G. INFORMATION: Annual Orientation Meeting - September 2021  Kelli Badesheim
Each year VRT staff provide an annual orientation to the Regional Advisory Council. The orientation is a refresher on the RAC practices and a time to set goals for the upcoming year. The RAC members will be asked to discuss topics they would like to discuss in September and areas they would like more information on.

H. INFORMATION: Topics for Discussion  Walter Steed
Members of the Regional Advisory Council will have the opportunity to bring up topics they would like to be considered as future item.

VII. DEPARTMENT/STAFF REPORTS

A. INFORMATION: Department/Staff Reports  Pages 33-44  Staff
The most current department/staff reports were included in the packet for information.

VIII. ADJOURNMENT

θ = Attachment
Agenda order is subject to change.

NEXT REGIONAL ADVISORY COUNCIL MEETING:
September 21, 2021
VRT Boardroom (Virtual option is also available)
700 NE 2nd Street
Meridian, ID 83642

For questions or comments regarding this agenda, please contact Kelli Badesheim at (208) 258-2712 or email kbadesheim@valleyregionaltransit.org

Arrangements for auxiliary aids and services necessary for effective communication for qualified persons with disabilities or language assistance requests need to be made as soon as possible, but no later than three working days before the scheduled meeting. Please contact Mark Carnopis, Community Relations Manager at 258-2702 if an auxiliary aid is needed.
*The first floor Boardroom is open for in-person attendance, but has very limited capacity. In-person attendees must maintain physical distance and should wear a mask at all times in the building, if not fully vaccinated. With the exception of RAC members, attendance will be on a first-come, first-serve basis.*)
Regional Advisory Council Minutes
Tuesday, May 18, 2021
9:00 AM

MEMBERS PRESENT | MEMBERS ABSENT | OTHERS
--- | --- | ---
Deborah Allen | Kelly Berg | Kelli Badesheim, VRT
Susan Bradley | Lisa Brady | Jarred Blankenship, VRT
Randy Johnson | Samantha Kenney | Paula Cromie, VRT
Terri Lindenberg | Salome Mwangi | Jeannette Ezell, VRT
Jeremy Maxand | | Joe Guenther, VRT
Mary Beth Nutting | | Rachel Haukkala, COMPASS
Deeann Solis | | Stephen Hunt, VRT
Walter Steed | | Jason Jedry, VRT
| | Nick Moran, VRT
| | James Mundell, VRT
| | Leslie Pedrosa, VRT
| | Randy Reese
| | Jill Reyes, VRT
| | Eric Selekof, VRT
| | Alissa Taysom - VRT
| | Kevin Womack, VRT

CALLING OF THE ROLL - Chair Walter Steed called the meeting to order at 11:00 with a quorum present by phone and in person.

AGENDA ADDITIONS/CHANGES – All of the items Leslie Pedrosa presented were be moved to the top of the information items, as she needed to leave the meeting early.

PUBLIC COMMENTS - None

CONSENT AGENDA
Items on the consent agenda consisted of the following:
ACTION: Regional Advisory Council Minutes from April 20, 2021 Meeting
Jeremy Maxand moved to approve the consent agenda as presented; Terri Lindenberg seconded. The motion passed unanimously.

ACTION ITEMS
ACTION: Regional Advisory Council Bylaws and Handbook Update
Following discussion, Jeremy Maxand moved to recommend the update to the RAC Bylaws and Handbook for approval to the Executive Board/Board; Terri Lindenberg seconded. The motion passed unanimously.
INFORMATION ITEMS

INFORMATION: Regional Advisory Council Membership Renewals
(This was marked as an action items and was supposed to be an information item.)
Kelli Badesheim led a discussion regarding expiring RAC positions for the upcoming year. Following RAC bylaws, current members whose term are expiring in September were contacted. Jeremy Maxand, Randy Johnson and Lisa Brady elected to remain members of the Council. Salome Mwangi let staff know she would be stepping down and asked that Susan Manika, with the Idaho Office of Refugees, take her place. Kelly Berg stepped down and will need to be replaced. Walter and Paula will work to compile a list of entities he can reach out to recruit new members from Canyon County. Susan will follow-up with the Area Agency on Aging. Jeremy Maxand with work with his counter parts in Canyon County to see if they can come up with a new RAC member.

INFORMATION: Canyon County Rides2Wellness Update
Leslie Pedrosa provided an update on the Canyon County Ride2Well expansion.

INFORMATION: Building Accessible Capacity Update
Leslie Pedrosa provided an update on the Building Accessible Capacity work group.

INFORMATION: Canyon County On-Demand Transit Update
Leslie Pedrosa provided an update on the on-demand transit service in Canyon County.

INFORMATION: Meridian Veterans Shuttle Update
Leslie Pedrosa provided an update on the Meridian Veterans Shuttle. Walter Steed questioned the west boundary of the service as shown in the packet. It was explained it followed the Harvest Transit boundaries and perhaps they needed to be adjusted to accommodate the city of Meridian’s growth and annexations. Kelli will follow-up.

INFORMATION: Neighborhood Based Coordination Committee Update
Mary Beth Nutting provided an update of the Neighborhood Based Coordination Committee. The committee had been planning to have the Walk and Talks in September to align with the Energize our Neighborhood conference that is typically held in September. Randy Johnson contacted them and found out that they have postponed it to spring 2022. They do not have a date picked yet. Randy has arranged for us to be one of their scheduled workshops.

INFORMATION: FY2022 and FY2023 Service Change Update
Stephen Hunt provided an update to the FY2022 and FY2023 service change process and public feedback. Walter Steed asked that the link to the survey be sent to all RAC members.

INFORMATION: Topics for Discussion
Members of the Regional Advisory Council were again advised they could bring up topics to the Chair, Vice-Chair, Executive Director or Administrative Assistant for consideration as items they would like to be considered as future agendas.

DEPARTMENT/STAFF REPORTS

INFORMATION: Department/Staff Reports
The most current department/staff reports were included in the packet for information.

ADJOURNMENT – Terri Lindenberg moved to adjourn the meeting; Jeremy Maxand seconded. The meeting was adjourned at 10:37.
NEXT REGIONAL ADVISORY COUNCIL MEETING:
June 15, 2021
VRT Boardroom
700 NE 2nd Street
Meridian, ID 83642
Summary
Valley Regional Transit (VRT) is preparing for planned and emergency services changes in October 2021, and is developing service change concepts for future years and potential inclusion in a future Transportation Development Plan. In preparation for these changes, staff developed a survey that ran through the month of May.

What we heard in May:
More than 100 people completed VRT’s Service Survey in May. In this survey, we asked the public about the 150 VRT OnDemand, routes 11 Garden City and 17 Warm Springs, and priorities for potential changes to transit service on the West Bench. We summarized the comments received into the five themes below.

- All our service matters
  - Although the majority of respondents did not use routes 11 or 17, those who did will be negatively impacted by the proposed elimination and reductions. Although it is not easy to make proposals that will negatively impact people, VRT will continue to work to provide alternatives to those losing service. For example, the entire service area of the 11 Garden City is within the Lyft Transit connection service area. We will also be adding a few stops to the 8x on Chinden to minimize the loss of the 11.

- People want to go more places, especially on Saturday
  - Overall, the survey respondents were evenly split on whether the next 150 OnDemand investments should prioritize going to more destinations or operating on Saturday. However, when we limited the responses to just those that currently use the 150, approximately 52% chose adding Saturday service as their number one priority (over serving more destinations ~29% and longer hours of operation ~19%).

- Transit may be coming closer to you.
  - In preparation for development of service concepts for a potential West Bench restructure including routes 7A, 7B, 8 and 8x, VRT has asked the public about what guiding principles is should use. On a sliding scale, 54% of survey respondents would maximize transit access over increasing service to existing riders (26%)

- People want frequent service...everywhere
  - VRT also asked the public to state their preference on whether transit should go more places or come more often. Although the percentage of people who strongly favored more places (28%) nearly matched the percent of people who strongly favored service coming more often (30%), when we added the percent of people slightly favoring service coming more often (18%) to those slightly favoring more places (12%), the respondents leaned a little more
toward service coming more often (48%), compared to going more places (40%).

- Transit should be available all day.
  - The clearest response we received from the survey was that people want transit service to be available all day. 67% of respondents said all day service was somewhat or strongly favored over commute period service (19%).

**FY 2022 Service Change Outreach**

On July 2, we launched a second round of outreach that specifically focuses on the October 2021 service change. The outreach includes a summary of the upcoming service change, including questions about reducing service on the Route 43 due to low ridership.

- Fairview Corridor Changes
  - 7B Increased Peak Frequency – 3 morning commute trips and 4 afternoon commute period trips
  - 7A/7B reroute at Curtis
    - We are proposing a minor reroute of the 7A and 7B Eastbound to improve on time performance and safety. The reroute would utilize the on-ramp on Fairview just east of Curtis. This reroute would avoid the signal at Curtis and Orchard, the lane changes on Orchard and the unprotected left from Orchard onto the connector. This will lead to the closure of two stops, Fairview and Laurel, and Fairview and Orchard (see figure 1).

*Figure 1: 7A/7B Curtis Reroute*
- Route 11 Garden City Elimination
  - We will be adding some stops to the route 8x on Chinden at Murray, and between 35th and 36th (see figure 2)

  *Figure 2: Route 11 Elimination and 8X Stops*

- Route 17 Warm Springs
  - We are continuing to move forward with the reduction of the peak period frequency on the Route 17 Warm Springs from 30 minutes to 60 minutes.

- Route 29 Overland
  - We are doing a minor reroute of the Route 29 near Boise State University to improve travel times and the safety of riders. Instead of turning left on to Chrisway and then left again on Boise Avenue, the 29 will make a left on to Juanita, travel to Potter, then down Joyce back to University Drive before continue to Beacon, then to Protest (see figure 3).

  *Figure 3: Route 29 Reroute*
• Meridian Service – Route 30 Pine
  o The route 30 Pine will travel between Ten Mile and Franklin to the Village from 6 – 9 am and 3 – 6:30 pm (see figure 4).

Figure 4: Route 30

• Route 43 Caldwell Express
  o We are reducing the number of trips to one a.m. and one p.m. trip on the Route 43 due to low ridership and have asked riders to provide feedback on the specific timing of these trips. We have included these questions in the full outreach, but have also created a small survey targeting just the riders of the 43, with a post card that is available on the 43 bus, including a QR code for the survey as well as an opportunity for the riders to fill out a paper version.

West Bench Restructure Outreach
• After reviewing the survey responses for the West Bench restructure, we have begun developing several options. All options are based on investments in the 7B Fairview Towne Square Mall that would increase its frequency to at least 30 minutes all day. That investment would make it possible to repurpose the hours of the 7A. This could open up the possibility for new or improved connections in the West Bench.
• Other changes that could occur at the same time include restructuring the 8x to provide two-way service along Chinden to the State of Idaho Campus in West Boise and changes to the 8 Five Mile. The changes to the 8 and 8X would be designed to address poor on-time performance, lower ridership and requests for improved connections between downtown and West Boise. Staff will continue to work with stakeholders and the public on these concepts.

Staff Recommendation/Request
No action, this is an information item only.

Implication (policy and/or financial)
Outcome of service change planning will inform service and capital expenditures.

For detailed information contact: Alissa Taysom, Associate Planner, 208.258.2717, ataysom@valleymetrorapidstransit.org
Summary
On March 1, 2021 the Executive Board approved the allocation of small urban CARES funding to implement Rides2Wellness in Nampa and Caldwell, and to support planning projects and tools that lead to addressing mobility challenges and disconnects between housing, jobs, education, social services, and recreation. These disconnects are becoming more prevalent as communities grapple with decreased housing availability and housing costs throughout the region.

A key tool to achieve a better understanding of these challenges throughout our region is a digital community engagement platform VRT has acquired through a company called CitizenLab. This tool supports reaching more broad-based and diverse populations in our region, and has robust data collection and analysis tools to help VRT bring citizens directly into the planning and decision-making process. The tools provide real-time data throughout the engagement and decision-making process.

VRT will work closely with key stakeholders to deploy the platform in three geographies for the next 12 months. The geographies include Canyon County, Middleton/Star/Eagle, and Kuna/Meridian. These areas were selected because they represent areas with limited public transportation and demographic features that are unique from one another. VRT staff will be adapting two planning frameworks we have used to address mobility challenges for the past several years, Design Thinking for Mobility and Results-based Accountability to measure the effectiveness of expanding engagement as well as the quality of the solutions developed through the Engage platform.

Each geography will have a VRT project manager; a local project team composed of key stakeholders, and collaboration partners representing all the sectors within the respective geographies. The collaboration partners will be key to ensuring the platform reaches the broad cross-sections of the population. The platform allows for both digital and non-digital engagement. The key is that all the data collected in those types of environments will be collected and analyzed through the platform.

Attached is an outline of the CitizenLab Engagement Ladder, the project overview and scope specific to the Canyon County project, and the outline of existing and emerging services within the target geographies. CitizenLab complies with international standards on accessibility, and is fully compliant with WCAG 2.1 AA guidelines, as certified by the AnySurfer Label. Each geographic area will have a similar structure and scope, adapted to the unique aspects of those areas.

The first launch will be in Canyon County in July with the other areas rolling out throughout the summer months. VRT will develop more refined implementation schedules as solutions evolve through the decision-making process.
**Staff Recommendation/Request**
This is for information only. The RAC members will be asked to push out invitations to key groups they represent in the target geographies.

**Implication (policy and/or financial)**
Effective community engagement is challenging with limited staff resources. The Engage platform will assist data-driven decision-making for developing transportation solutions to meet the unique needs of each target area. Engaging diverse populations will help ensure solutions meet the criteria of being desirable to customers, feasible to operate and financially viable and sustainable over time.

**Highlights**

**Schedule**
- Spring 2021 – Training and initial design workshop
- Summer 2021 – Platform design and launch
- Fall 2021 – Develop and test solutions
- Winter/Spring 2021 – Evaluate and develop final solutions

**More Information**

Connected Canyon County
Overview and Scope of Work (Draft)

Project Purpose
In Canyon County, transportation and mobility are the keystones to socioeconomic well-being. However, the rapid regional demographic changes have outpaced the availability of local transit options and so access to important needs and activities like healthy foods, education, healthcare, jobs, and childcare has significantly declined. People are moving farther away from jobs, increasing the cost to travel in both money and time. Funding for transportation services is limited. In addition, limited funding exists to support use of more active modes, such as bike and pedestrian infrastructure. Many organizations, committees, and collaborations have formed throughout the county to address specific gaps to access these important life activities, many of those work on specific aspects of the mobility gap, but to date there has not been an effort to consider those needs in a more coordinated way.

This project seeks to:
- remove barriers to problem solving;
- address mobility challenges;
- enable inclusion through digital and non-digital engagement strategies; and,
- determine approaches to strengthen community partnerships.

We will accomplish this by:
- bringing together a broad-based, multi-sector collaboration, engaging all levels of the community through a digital community engagement platform;
- defining clear results and measures for success; and,
- developing and evaluating solutions through a design-thinking for mobility planning framework.

Solutions will seek to help collaboration partners to align our collective resources (time, treasure, and talents) to address barriers and increase access to opportunities for all who live, work, learn, play, and access services in Canyon County.

Key Objectives
- Define the challenge as the partners see it;
- Develop a shared understanding of the outcomes we would want to achieve;
- Build a robust community engagement platform and processes designed to reach every sector and socio-economic population in Canyon County (primary data);
- Compile the information we already have on the needs of all populations (secondary research);
- Define and document data gaps needed to support effective decision-making;
- Identify actionable solutions that can be implemented upon completion of design process;
- Implement solutions; and,
- Serve as a foundation for other community and regional initiatives designed to bridge the mobility and information gaps in our region.
Project Elements by Phases (Draft)

Phase 1 - Be Curious - Late June through August 2021

Objective
Phase 1 will gather data and information directly from a broad cross-section of the community through digital and non-digital community engagement strategies, and a distillation of key reports and studies completed in Canyon County over the past few years. The project team will use the data and information gathered in this phase to identify needs, gaps and barriers used to inform solutions in subsequent phases. Data gathered from the public can focus on current needs and gaps, as well as explore a future-focused look at community mobility (five and ten years out) to support the opportunities they would like to see for their well-being and their community.

Engagement
Project Team:
- Digital Platform Design Testing and Refinement Workshop
- Customer “Sense-making” Workshop
- Review, summarize four-question responses and establish outcomes and measures

Community Partners:
- Participate in Needs and Gaps, and back-casting exercise on Engage platform
- Four-question exercise on Engage platform

Broader Community:
- Participate in Needs and Gaps on Engage platform

Community Advisors:
- Participate in Needs and Gaps

Phase 2 - Be Imaginative - September 2021

Objective
Phase 2 is where the community partners come together to design one or more successful solutions to be taken into subsequent phases of the project. The solution design work would be centered around the current and future-focused inputs from the previous phase. The partners would develop ideas including low-no cost to BIG AND BOLD in three timeframes: current, mid-term, and long-term scenarios.

Engagement
Project Team:
- Design partners Engage platform activities and Solutions Workshop
- Analyze results
- Develop Solutions Building Blocks

Community Partners:
- Workshop: Solutions Design (focus on Question 6 What works to do better?)
- Strategic Matrix exercises
Broader Community
- Informed on progress and solutions design through Engage Platform

Community Advisors:
- Informed on progress and solutions design through Engage Platform

Phase 3 - Be Explorers - October through December 2021
Objectives
This phase focuses on testing assumptions, including make or break assumptions for the solutions identified in the previous phase. Assumptions will be identified around the following key questions:
- Do the ideas address the needs?
- Are the ideas feasible to implement?
- Can the ideas be financially sustained over time?
- What is still missing to achieve success?
- Who are the partners needed?
The assumptions will be used to refine and reiterate the solution(s) design to narrow the solutions down to the one or two best ideas to move into the subsequent phase.

Project Team:
- Develop assumption testing plan
- Design and launch Engage platform assumption testing activities
- Finalize solution(s) design

Community Partners:
- Assumption Testing
- Design Refinements on Engage platform, Question 5 - Who are partners?
- Go through strategic matrix

Broader Community:
- Assumption Testing and Design Refinements on Engage platform

Community Advisors:
- Information and participation on Engage platform

Phase 4 - Be Builders - January 2022 through March 2022
Objectives
This phase focuses on developing the value proposition for leaders and community partners. The project team will create a financial and implementation plan informed by key community leaders and influencers. The implementation plan will focus on opportunities to collaborate and align financial, human, and technical resources to achieve the final solutions in the short-term, including a clear path of next steps for longer-term solutions to develop.
Engagement

Project Team:
- Complete final business plan
- Design Leaders/Influencers Workshop
- Write final financial and implementation plan

Community Partners:
- Workshop: Implementation
- Final Action Plan, partner roles, and timeline

Broader Community:
- Inform on solutions moving forward and implementation strategy

Community Advisors:
- Workshop to engage influencers into a collective impact type process (process to align resources and activate solutions)
Engage Platform
Current Services and Activities by Area

**Canyon County** – Lead Staff: Kyle Lehnert-Wees

**Current services**
- VRT On-demand
- Metro Community Services
- Treasure Valley Transit Beyond ADA
- Non-emergency Medical Transportation
- Rides 2 Wellness – Launching in April
- Saturday Grocery Shuttle
- Vanpool services going to or passing through Ada County

**Current and Emerging Activities**
- Transportation Development Plan
- On-demand enhancement
- Regional Vanpool Study
- Integrated Mobility Plan
- Coordinated Human Service Plan
- Treasure Valley COVID Mode Choice Survey
- Happy Day Transit Center Master Facility Plan
- COMPASS Park and Ride Study
- Fixed-route and Demand Response Scheduling and Dispatching System Replacement
- Bus Stop typology
- Nampa bicycle and pedestrian improvements to transit
- City Go – Integrated payment app

**Middleton, Star, Eagle – HWY 44 Corridor** – Lead Staff: Wayne Rysavy

**Current Services**
- 9X Boise through Eagle
- Vanpool
- Eagle Senior Center transportation
- Star Senior Center transportation

**Current and Emerging Activities**
- Transportation Development Plan
  - Five year area specific service plan within and between cities in corridor
- Bus Stop Typology
- State Street Corridor Operational Analysis
- Regional Vanpool Study
- COMPASS Park and Ride Study
- Coordinated Human Service Plan
- Integrated Mobility Plan
- COVID Mode Choice Survey
- City Go – Integrated payment app

**Kuna and Meridian** – Lead Staff: Alissa Taysom

**Current Services**
- Harvest Transit
- Kuna Senior Center Transportation

**Current and Emerging Activities**
- Transportation Development Plan
  - Kuna local transit plan
  - Meridian route 10 Mile to Village
- Bus Stop Typology
- State Street Corridor Operational Analysis
- Regional Vanpool Study
- COMPASS Park and Ride Study
- Coordinated Human Service Plan
- Integrated Mobility Plan
- COVID Mode Choice Survey
- City Go – integrated payment app
**Summary**
Valley Regional Transit (VRT) wants to ensure all populations, including persons with disabilities, have equal access to surveys on our main website (valleyregionaltransit.org).

VRT often uses online surveys to collect public comment on a variety of topics. These surveys have proved to be a valuable tool used by our staff to help guide projects and service development and modifications.

Earlier this year, accessibility concerns were raised by a local consulting firm regarding an online survey to collect public comment regarding transit services on State Street between Whitewater Park and Main Street Station. The consulting firm concluded the survey did not conform with technical standards for accessibility under federal law. The issues include usability by screen readers (software programs that allow blind and visually impaired users to read the text that is displayed on a computer screen with a speech synthesizer or braille display), and those with low vision and fine motor skill challenges.

To address these accessibility issues, staff developed a draft procedures document that provides staff direction on how to make surveys accessible to all populations. This fluid document can be modified based on needs and required updates.

The draft procedures document also provides direction regarding accessibility of our main website (valleyregionaltransit.org).

**Staff Recommendation/Request**
Information item: Mark Carnopis will review the draft of a new VRT procedures document regarding the accessibility of online public surveys and the VRT website (valleyregionaltransit.org) and accept suggestions.

**Implication (policy and/or financial)**
Staff time needed to develop a VRT procedures document and a checklist of items to ensure that surveys are accessible to those with visual or motor skills limitations.

**Highlights**
- January 2021: A review of a VRT online survey by a local consulting firm concludes that the document is not accessible to some people with motor skills limitations or who are blind or rely on screen readers.
- Spring 2021 – VRT Community Relations Manager researches best practices for making surveys accessible to all populations. This outreach includes conversations with Idaho Commission for the Blind and Visually Impaired staff, a review of the consultant’s findings, and online research of best practices regarding accessibility.
- June 2021 – Regional Advisory Council reviews draft written VRT procedures that address survey and website accessibility, and provides comments and suggestions.
- If the procedures document needs to be revised, a new draft of the document will be brought to the RAC in September for final approval.

More Information
For detailed information contact: Mark Carnopis, Community Relations Manager, 208-258-2702, mcarnopis@valleyregionaltransit.org.
Survey and Website Accessibility Procedures

Overview
Valley Regional Transit (VRT) often uses online surveys to collect public comment on a variety of topics. These surveys have proved to be a valuable tool used by our staff to help guide projects and service development and modifications.

VRT also provides a lot of information about its operations and services through its website (valleyregionaltransit.org). These public resources include bus schedules, meeting agendas and packets, and service changes under consideration.

VRT is committed to proactively ensuring compliance with state and federal laws regarding equal access to online resources for persons with disabilities. The following guidelines provide information and suggestions that will ensure online surveys and websites maintained by VRT are accessible to people with disabilities.

Guidelines for Accessible Surveys and Forms
Making online surveys accessible can be a challenge. Readers may have disabilities that, depending on how the survey is designed, may make it hard for them to access or complete it. VRT staff should adhere to the following guidelines in regards to the development and implementation of online surveys. These guidelines will help ensure the survey is both easy to understand and to navigate.

Survey Development
- Clearly state what the survey is about.
- Say how many questions there are, or use a progress indicator.
- Allow people to save and return to the survey, especially if it is long.

Language
- Make section categories to organize content.
- Use bulleted lists to break up text.
- Spell out acronyms the first time, e.g., “purchase order (PO).”

Rankings
- When asking readers to rank items, use words, rather than numbers, as the scale. Too often, people need to repeatedly refer to the legend. It can get confusing for everyone and especially screen reader users.

Good example:
Question: Rate your coffee  Answer: hot, tepid, cold

Bad example:
Question: Rate your coffee  Answer: 1, 2, 3 (1=hot, 2=tepid, 3=cold)

Buttons and boxes
- Decide how many response options people can select. If only one, use radio buttons. If more than one, use checkboxes.
• Make sure radio buttons are right next to the label.

Negative answers
Avoid posing questions in the negative so that the reader has to answer “yes” to confirm a negative. It is confusing.

*Good example:*
  Question: Do you support motherhood and apple pie?

*Bad example:*
  Question: Are you opposed to freedom of speech?

Multiple choices
For questions with only a couple of multiple-choice answers, a horizontal layout is preferred.

*Good examples:*
  Question: Which cat breed do you like best? Answer: Burmese, Manx, Persian
  Question: Are you a genius? Answer: Yes, No

For questions with many multiple-choice answers, a vertical layout is better.

*Good example:*
  Question. Which dog breed do you like best?
  • Akita
  • Beagle
  • Chihuahua
  • Dalmatian
  • Poodle
  • Rottweiler

Tables
Grids or tables are difficult for screen reader users to navigate. Complex tables with many rows and columns of questions and answers are difficult for anyone. Rather than formatting questions in tables, separate out the questions. Have readers answer each question individually.

*Good example:*
  Question: Do you like cake? Answer: Yes, No
  
  Question: Is your house blue? Answer: Yes, No

*Bad examples:*
  Do you like cake?
  Do you eat salt?
  Are you tall?
Can you read?
Do you speak Spanish?

**Keyboard controls**
VRT staff will ensure readers can use the tab key to move between questions and between answers, as with any accessible form. Not everyone can use a mouse.

**Images**
- If using an image as part of the question or answer, VRT will provide a text equivalent (alt attribute, transcript, etc.) so screen reader users can interpret it.

**Color and font**
- Provide clear color contrast between the text and background.
- VRT will not use color alone to convey meaning, such as a red “stop” button and a green “go” button. Also, use text.
- We will ensure readers are able to increase the font size themselves.

**Confirmation page**
- VRT will ensure the completion or thank you page is also accessible.

**Testing**
- VRT will do a dry run of the survey with a variety of readers before it goes live. VRT will work with disability groups, including the Idaho Commission for the Blind and Visually Impaired, and refugee support agencies to ensure equal accessibility.

**Oversight**
The VRT Community Relations Manager (CRM) is responsible for ensuring surveys are accessible to all populations and state and federal laws regarding equal access to online resources for persons with disabilities are being followed.

**Websites**
VRT will ensure its websites are compliant with the following standards:
- Federal Section 508 Electronic and Information Technology Accessibility Standards.
- World Wide Web (W3C) Web Content Accessibility Guidelines, (WCAG) 1.0 and WCAG 2.0 AA.

The VRT Community Relations Manager (CRM) will have oversight to ensure website accessibility. All concerns and suggestions from the public and others will be forwarded to the CRM for review and response. The CRM will ensure a quick response to requests for accommodations to meet the needs of those with disabilities. The goal is to respond to a request within 24 hours.

The CRM will forward any accessibility concerns/suggestions regarding the VRT website to the agency/firm that developed the website for review and response.

When the CRM is unavailable (out of office), the oversight role for website accessibility compliance will be the VRT Programs Director, followed by the VRT IT Administrator.
Summary

Valley Regional Transit continues to improve transparency and decision making by publishing data through quarterly performance dashboards. The design of these reports will provide high-level analytics for all providers of public transportation in Ada and Canyon counties.

In October 2020, VRT began operating on-demand services in Nampa and Caldwell, which replaced the local fixed-routes. This new service is reported under demand response, as required by the National Transit Database. In fiscal year 2021, you will see a shift in the ridership report for fixed-route and demand-response in Canyon County.

As expected, when comparing data to fiscal year 2020, there continues to be a decrease in ridership due to the COVID-19 pandemic. All senior centers opened during the second quarter, and many services began to see ridership increase.

Fixed-route services show a decrease of 50% in the second quarter. When reviewing detailed ridership data, Ada County decreased by 42%. Up to 20% is expected when you are comparing APC data after the first year of reporting, so approximately 22% is due to COVID. Boise State continues to see a steep decrease in ridership, 79%, due to limited classes being offered in person. Intercounty continues to see a steep decrease in ridership, 50%, due to the majority of employees still working remotely. There will no longer be ridership reported in Canyon County with on-demand transit being reported as demand response.

Demand-response services show an increase of 14% in the second quarter, due to the change in reporting with the on-demand service. Without the on-demand service reporting change, ridership would reflect approximately 50% drop in ridership. When reviewing detailed ridership data, Ada County continues to show a decrease in ridership, 53% and Canyon County shows a decrease of 14%. These services continue to be severely impacted, due to the vulnerable population that utilizes the service. Canyon County on Demand is newly reported, which is reflected in the increase.

Specialized Transportation services are down 43% in the second quarter. The majority of these services also provide service to a vulnerable population. Most services saw ridership increase over the first quarter, but nothing close to pre-pandemic ridership. Village Van services are down significantly, due to employees working additional hours, which are outside of the current schedule. Below is the breakdown for each service:
  - Metro Community Services had a 42% drop in ridership
  - Harvest Transit had a 51% drop in ridership
  - Eagle Senior Center 43% drop in ridership
SHIP had a 49% increase in ridership. SHIP added additional service in the fourth quarter of fiscal year 2020, which ended in this quarter

Village Van had a 67% drop in ridership
Star Senior Center had a 28% drop in ridership
Kuna Senior Center had a 59% drop in ridership
Meridian Senior Center had an 56% drop in ridership
Shared Vehicle ridership is down 93%. Calvary Church and Interfaith Sanctuary provided very little services in the second quarter of fiscal year 2021
Volunteer Driver had an 3% decrease in ridership
Rides2Wellness had a 43% drop in ridership
Parma Senior Center had a 49% drop in ridership

ACHD Commuteride had a 45% drop in ridership. ACHD Commuteride operated 82 vanpools by the end of the second quarter, which is almost back to pre-pandemic level, however they are not requiring a minimum passenger requirement to operate a vanpool at this time.

VRT First Mile, Last Mile services had a 31% drop in ridership. Lyft Transit Connections had a 31% drop in ridership. VRT Late Night had a 31% drop in ridership.

Staff Recommendation/Request
This is an information item only.

Implication (policy and/or financial)
Improved reporting could lead to additional federal funding resources for the region.

*Ridership is included in the National Transit Database reporting for Fixed Route by Valley Regional Transit

**Ridership is included in the National Transit Database reporting for Demand Response by Valley Regional Transit
Summary

With ridership slowly starting to increase, Valley Regional Transit (VRT) staff is working on promoting the on-demand service in the months to come. VRT has created a bus wrap design, in English and Spanish, which have been installed on three vehicles used in Canyon County to promote the service. VRT continues to offer no cost rides to several COVID-19 vaccination sites in Nampa and Caldwell. The month of May provided free trips on the service to promote May in Motion.

VRT finalized a partner toolkit that provides digital and social media strategies for our local funding partners to use. The strategies can be used to push out on their media platforms as well as allow them to educate the public on the new service.

VRT is hopeful with recent restrictions being lifted following the pandemic, city staff at Nampa and Caldwell will soon schedule a ride-along. VRT staff will continue to work on building new partnerships with the expanded service area.

The table below provides service metrics for April, with the variance compared to March.

**Staff Recommendation/Request**
This is an information item only.

**Implication (policy and/or financial)**
With the expectation that the on-demand service will continue to grow, VRT staff is hopeful that existing funding partners continue to see the need for public transportation in Canyon County. This innovative approach to improve services in Canyon County is proving that additional funding is needed from current and future funding partners, for growth to continue.

**More Information**
For detailed information contact: Leslie Pedrosa, Operations Director, 208.258.2713, lpedrosa@valleyregionaltransit.org
COVID-19 and Next Phase Resiliency Activities
There is more to report on this area in the budget memo found in the Executive Board packet. VRT staff are preparing to hold the July meeting in person. Staff is scheduling changes in the coming weeks on the camera set-up, but that should not prevent us from having a very good meeting experience on July 12.

We are all starting to feel the effects of supply and labor shortages in our transit operations due to low unemployment and competition with other employers. I sent an email this week to the Executive Board outlining anticipated disruption to services in Canyon County based on the shortage of drivers and mechanics. VRT has made some changes to the preliminary budget for FY2022 to address regional administration staffing continuity. First Transit is evaluating the budget implications and will share those with the Executive Board on July 12.

Federal Funding Update
As reported previously, the member designated $2 million in funding submitted by Congressman Simpson for State Street Corridor was included in the draft reauthorization bill. That bill is moving through the House. The Senate’s version of transit funding is being drafted through the Senate Banking Committee. The current bill expires on September 30, so both houses of Congress are working to meet the deadline. The current versions of this bill all show significant increases in funding for transit operations and infrastructure.

We have been tracking the Infrastructure bill currently moving through the negotiation process between Congress and the Biden Administration. The most current version has additional funding for transit. I have not seen any tables to determine how much VRT is likely to secure in additional formula funding, but will be tracking this closely as the bill reaches conclusion in the coming days.

Building Reporting Capacity
Several new technology systems are being implemented this year to assist in enhancing our reporting capacity. The Executive Board will also consider changes to the Transit Asset Management Policy and Plan. This is one of the steps to shift to a Capital Improvement Plan approach to project prioritization. These activities are integral in setting up the reporting structure and processes we need to complete. Our goal is to have everything set up by the end of the fiscal year, or into the first quarter at the latest.

Digital Community Engagement Platform
VRT staff are within weeks of launching our first engagement project in July. The first project will be Connected Canyon County Community Partners. We will be running a broad community engagement concurrently. The broader engagement is set to launch in August. I am scheduling meetings with local staff and elected officials to work through the blueprint for the launch of the initiatives in the other target areas: Middleton, Star, Eagle, Kuna and
Meridian. We will have this platform into spring 2022. The platform will help us learn more about travel patterns, needs and gaps, and perceptions about transportation services that would support the needs in their communities. In addition, staff will provide on-going updates to the VRT Board and local officials as the project moves forward.

**Projects and Community Activities**

- Providing project management support to the Connected Canyon County project and the digital community engagement roll-out
- Supporting grant administration work in the area of balancing grant and local funding for VRT’s federally funded projects
- Supporting Western Idaho Community Healthcare Collaborative (WHCHC) to establish strategic activities based on measures of social influencers of health, including transportation
- Providing staff support to the strategic work group with City of Boise. The focus this year is on developing a portfolio of transit projects for the State Street Corridor, and seeking an investment strategy for securing funding to complete high priority projects.
- Providing staff support to the State Street Corridor Executive Team

**More Information**

Summary
Development Department activities June 2021 report

VRT Strategic Plan
Goal 1 - Demonstrate responsible stewardship of public resources
Performance Based Decision-making
  • ValleyConnect 2.0 (VC2.0)
    Staff is continuing to refine the Transit Asset Management process to better align funding decisions with the equipment needs. These refinements have been incorporated into the TAM Plan and Policy updates for Executive Board consideration.

Programming/Budget Development
  • Budget Development – The FY22 budget development cycle is underway. Staff has continued scheduling meetings with local jurisdictions and agencies to discuss annual funding requests, proposed projects and budget assumptions. Staff has applied the Regional Planning and Prioritization workshop discussions to the FY2022 budget development calendar. Initial FY22 funding request letters have continued to go out to local jurisdictions.

Goal 2 – Increase Ridership and Revenue
  • Marketing – Working with VRT marketing staff, development staff is supporting continued efforts to increase awareness of the extension of the 9 State Street to Eagle. Vouchers for two free rides on the 9 were sent out to Eagle residents in their June utility billing. VRT joined with other agencies in promoting alternative transportation as part of our title sponsorship of May in Motion. Although May’s ridership numbers are still being processed, preliminary numbers show a significant increase in fixed-route ridership for the month of May.
  • FY2022 and FY2023 Service Changes – Development staff collected public feedback on emergency and planned changes for FY2022 and initial discussions about service concepts for FY2023. VRT collected more than 100 survey responses and has been using that input to further refine FY2023 concepts.
  • Regional Revenue Analysis and Strategic Plan – Development staff participated in the selection and pre-kick-off work to initiate an analysis of VRT revenues and identify non-traditional sources of revenue to fund transit services and capital projects.

Goal 3 - Build institutional and regional capacity
Regional Capital Enhancements
  • Boise Operations Facility
    o Electric Bus Infrastructure
      Construction on electric bus infrastructure at the Orchard Facility is substantially complete. The charging infrastructure is in place, on time, for the start of electric
vehicle operations when the vehicles arrive. Chargers have been commissioned and are ready for use.

- **Fuel Island Work**
  Upgrades to the CNG facility are underway, STV Consulting assisted with design and consultant management. Dryer parts have been installed and cathodic protection upgrades will be addressed during the pavement reconstruction. Cooling units (compressor cooling units) are being modified for continued use while ECI looks at options for relocating roof coolers to ground cooling.

- **Orchard Facility Master Plan**
  A Facility Master Plan is being prepared to coordinate pavement repairs/replacement, incorporate the CNG projects as well as the E-Bus infrastructure. Jacobs Engineering is complete with preliminary engineering for FY2021 pavement construction. Environmental review (NEPA) is with Federal Transit Administration (FTA). With NEPA clearance, final design and contractor bidding can begin. Construction at the Orchard Facility will start in late summer/fall 2021 and will continue for up to three years.

- **Happy Day Transit Center Upgrades (HDTC)**
  Staff is reviewing and updating planned repairs and upgrades. Staff will present the results of the Feasibility Study, past studies, and immediate deficiencies to the VRT Executive Board at the July meeting. A major reconstruction option has been proposed, which includes roof repairs to both office and maintenance buildings, HVAC, security/safety improvements and compliance with ADA.

- **Main Street Station (MSS)**
  Standard maintenance activities continue at MSS. Office space rebuild contract has been issued to Alpine Construction. IT is working with capital to upgrade the PA system for announcements and safety notifications. A repair is needed on the exit ramp where the buses transition from the ramp to the street, design is underway to determine concrete strength and installation. Repairs are anticipated in early fall 2021.

- **Bus Stops**
  Five projects are currently underway to address bus stop infrastructure. Staff is working on two corridor studies and three construction projects.

1- **FY2021** general bus stop construction and purchases are being requested from the Executive Board at the May meeting. VRT staff are addressing amenity issues (benches, trash, etc.) at newly installed shelters as well as fixing American’s with Disabilities (ADA) issues and replacing obsolete infrastructure. VRT is also working with city of Boise staff to install Orchard Street projects as revenue backed projects from the City of Boise neighborhood grants as well as the transit component of the linear park being planned at Goddard and Milwaukee. Bus Stop construction is anticipated to start in early fall 2021.

2- **FY2021** projects include transit island enhancements along Main and Fairview, a revenue backed project from Capital City Development Corporation (CCDC). VRT will install five (5) best in class shelters after CCDC construction is complete.

3- **FY2022** projects are being scoped and will be resultant of the State Street Transit Operational Analysis, the Fairview Best in Class Study, and the Bus Stop Typology.
These studies will identify changes in operations and infrastructure needed to improve best in class and standard corridors.

Regional Corridor Planning
• State Street Corridor Projects
  The State Street Alternative Analysis committee is preparing its final alternatives recommendations. Those recommendations will be presented to the Executive Board in July.

  The State Street Transit Operational Analysis (SSTOA) consultant team met with the State Street Technical Team. Data has been collected and operational analysis is underway. The SSTOA is anticipated to have a draft ready for staff review in late September 2021 with the final product ready for board review in January 2022.

  Development staff has continued working with funding partners to increase funding for improved passenger amenities along the State Street corridor.

Other Development Activities
• FY 2021 planning projects –
  o Regional Vanpool Study – held kick off meeting and engaged project team.
  o Passenger Facility Plan/Bus Stop Typology – planning kick off meeting and initiating project
  o Coordinated Human Services Transportation Plan – Worked with the Regional Advisory Council and COMPASS to continue progress on the Coordinated Human Services Transportation Plan

• Grant Opportunities – VRT continues to look for federal grant opportunities including competitive grants focused on building out State Street corridor, innovative service delivery and electrification of the VRT fleet.

Jill Reyes, Planning Programmer, 208.258.270, jreyes@valleyregionaltransit.org
Summary
Status update of activities related to contracted transportation services, Specialized Transportation services, information technology and intelligent transportation systems, compliance, customer service support and regional operations for the months of January and February.

Regional Operations
VRT staff will continue to meet with the Building Accessible Capacity work group to continue the work started where the Access to Independence project left off in 2019. The original project team was created to determine objectives, concepts, and goals for what success would look like. The work group strives to build accessible capacity for eligible users, while still being cost effective, easy to use, and available to as many people as possible. The first task is a new service design for the current SCRIP program in Boise. The work group will continue to meet monthly and will work closely with the Regional Advisory Council to ensure the new service design meets the needs of all users.

On February 1, the Centers for Disease Control and Prevention (CDC) issued an Order imposing a mask requirement applicable to public transportation systems service providers to mitigate the risk of COVID-19. On May 5, this order was extended to September 13, 2021. With local businesses, jurisdictions and the CDC making changes to mask restrictions, VRT staff is working hard to continue to ensure that masks are worn at all times on buses and in transit centers.

One electric bus is scheduled for delivery the week of June 28. The remaining three buses are finishing up final inspection and repairs and will arrive in July. Installation of charging infrastructure for the electric buses has been completed at the Orchard facility in Boise. VRT staff and contract operators will begin the testing phase of vehicles once they arrive.

VRT staff finalized the contract with ETA Transit for the new fixed-route CAD/AVL Intelligent Transportation System Update. ETA Transit visited both VRT operations to begin the vehicle evaluations for equipment. ETA Transit expects to have all vehicles equipped by the end of July. With the new system, there will be a new web display as well as a phone app available to users. VRT will begin passenger outreach for all changes throughout the month of July.

VRT staff has been working closely with First Transit operations in Canyon County regarding driver shortages. More information can be found in the Service Continuity – Canyon County memo as part of the board packet.
**Highlights:**

**Contracted Transportation**

Canyon County
- One preventable accident since last report
- Intercounty on-time performance 82%
- ACCESS on-time performance 85%
- On-demand on-time performance (OTP) 81%
  - Staff worked with Via Mobility and is testing out a new reporting methodology for reporting OTP. It will be reviewed monthly to ensure accuracy.
- Working with VRT for planned service changes in October

Ada County
- One preventable accident since last report
- Fixed-route on-time performance 82%
- ACCESS on-time performance 96%
- Working with VRT for planned service changes in October

**Specialized Transportation**
- Almost all services are seeing ridership increase. There are no changes to any services or COVID19 cleaning protocols for the following services:
  - Parma Senior Center
  - Meridian Senior Center
  - Metro Community Transportation
  - Interfaith Sanctuary
  - Volunteer Driver
  - Lyft Transit Connections
  - VRT Late Night
  - Supportive Housing and Innovative Partnerships (SHIP)
  - Kuna Senior Center
  - Eagle Senior Center
  - Rides2Wellness
- Calvary Church has not resumed services
- Meridian Senior Center fully opened in May
- Rides2Wellness in Ada County is steadily increasing

**Information Technology and Intelligent Transportation Systems**
- Staff resolved 192 support requests from 202 submitted
- Working with internal departments to create work flows and standardize reports
- Preparing for CAD/AVL system replacement
- Participated in demonstrations for future software options

**Compliance**
- FTA mask mandate is in effect through September 2021
- Continue to distribute face coverings as needed
- Completed the audits of Ada and Canyon County facilities
• PTASP meeting prompted discussion points regarding driver awareness. Following a fatal accident involving a Parma Senior Center van, it is important to remember to not get into a routine and always watch your surroundings
• Presented draft Transit Asset Management (TAM) Plan with revisions to the Executive Board
• Attended virtual Federal Transit Administration (FTA) Drug and Alcohol conference

Customer Service Support
• Customer service handled 2,373 of 2,434 phone calls for information, with 61 calls abandoned. The average call time was 2 minute, 21 seconds and the average hold time was 18 seconds
• Reservationist handled 972 of 996 phone calls to change or schedule a ride on ACCESS, with 23 calls abandoned. The average call time was 3 minutes, 32 seconds and the average hold time was 13 seconds
• On-demand handled 667 of 70 phone calls to schedule a ride, with 40 calls abandoned. The average call time was 1 minute, 54 seconds and the average hold time was 25 seconds
• May mobile ticket sales totaled $931.50 Sales were reduced due to May in Motion allowing for free rides on transit during the month

Summary
This memo provides an update on the accomplishments of the Finance Department.

Highlights
Budget/Finance
- The cash balance of $3,835,476 at the end of April exceeded the average cash balance of the previous three years at the end of April by $676,245
- Finance is in the process of filling a vacant Accounting Specialist I position
- The FTA triennial review/audit exit interview is scheduled for June 30
- Finance staff are working on FY2021 project funding and tracking documentation
- Finance is assisting with finalizing the FY2022 budget

Grant Management
- Grants and Compliance Administrator is working on the following:
  - FTA grant applications
  - Active Grant revisions/amendments
  - Subrecipient Agreements for FY2021
  - Subrecipient Reviews
  - Triennial Review

Procurement
- Procurement and Contracts Specialist is working on:
  - Integrated Mobility Plan
  - Main Street Station Office Rebuild
  - On Call General Construction Services
  - Contract extensions

**Highlights**

**New Business Opportunities**
- Idaho Central Credit Union
- Idaho Commission on Aging
- Western Idaho Fair

**Advertising Installations & Renewals**
- Crush the Curve Idaho – Vaccinate 208 campaign
- Idaho Youth Ranch
- Homie Real Estate
- College of Western Idaho
- Intermountain Gas

**Idaho Safe Places**
VRT is working with the Idaho Youth Ranch to designate VRT vehicles and transit centers as Safe Places for young people needing immediate help and safety.

**Public Art**
On behalf of VRT, City of Boise issued a request for qualified artists to be included in a roster and may be selected and commissioned to complete a public art project using VRT bus shelters. The request can be viewed [here](#) and closes on July 9, 2021. The VRT underwriting team is seeking businesses and organizations to sponsor the art projects.

Summary
This report provides a status update of activities related to the downtown mobility collaborative, City Go.

Highlights
City Go staff is working with Moovit to integrate their real-time trip planner into the VRT and City Go website. Due to internal updates of the mapping system at Moovit, the new trip planners will not be live on the VRT and City Go website until later in the summer.

- City Go staff conducted outreach to 50 businesses in May and held five meetings with potential members. Additionally, City Go staff held two on-boarding events with members to promote options to their employees.
- City Go concluded its Sustainable Leader Challenge held during May in Motion for its members. The winner for the highest percent of sustainable trips among employees was Stoltz Marketing Group.
- City Go staff launched City Go Engage, which is an education, outreach, and advocacy workgroup. The kick-off meeting was held in June with representatives from: Ada County, CCDC, Downtown Boise Association, Idaho Walk Bike Alliance, and Stoltz. Other members of the workgroup include: Boise State, Clearwater Analytics, and St. Luke’s.
- City Go launched their member toolkit in June, which can be found here: [https://www.citygoboise.com/member-toolkit](https://www.citygoboise.com/member-toolkit) The toolkit includes flyers, social media posts, and videos to help employers promote sustainable transportation to their employees.
- City Go launched a new series called Sustainability Spotlight. The series highlights a different employer or business every month that is doing good work supporting and promoting sustainable transportation options. The first employer highlighted was St. Luke’s. You can find the article here: [https://www.citygoboise.com/news-and-events-posts/sustainability-spotlight-st-lukes](https://www.citygoboise.com/news-and-events-posts/sustainability-spotlight-st-lukes)
- Request for Proposals was released for the Integrated Mobility Plan and received two responsive proposals. Recommendations for the procurement will be brought to the Executive Board in August 2021.
- City Go is working with the Idaho Policy Institute to conduct a COVID-19 Travel Behavior Study valley-wide. The survey will go out later this summer. The final report for the study will be completed in fall 2021.

For detailed information contact: Kaite Justice, City Go Director, 208-258-2750, kjustice@valleyregionaltransit.org
Summary
This memo provides updates on current and future community outreach efforts, including those related to the Valley Regional Transit (VRT) Strategic Plan goals.

Highlights

- The VRT intranet site is nearing completion and staff training will focus on how to upload copy and update the page(s) on the site. The site will provide quick access to important forms and reference materials among other benefits to employees.

- A process is ongoing to collect, maintain and update printed outreach collateral (e.g. brochures, informational flyers) in one location. This effort will ensure a consistent look (branding), and insure outreach materials are kept updated and easily located and reprinted.

- VRT will soon take delivery of electric buses expected to be in service this fall. VRT has a team that is developing a plan to promote the buses and educate the public about the benefits of electric-powered vehicles.

- There will be a second survey developed and implemented this summer to collect public information about the upcoming service changes set for October. The public will review and comment on a revised version of the original service change proposal and options for improvements that will be made during fiscal year 2022.

- An extensive promotion of the on-demand service in Nampa/Caldwell continues. Elements of the campaign include wrapped buses and free rides. Staff from the cities of Nampa and Caldwell and local institutions of higher learning are assisting in this marketing/outreach effort.

- In July, a draft of internal procedure(s) to ensure public accessibility to outreach materials (e.g. surveys, website, and brochures) for those with physical and visual limitations will be presented to the Regional Advisory Council for review and comments.

- The ACCESS Appeals Policy is being updated and will go before the VRT Board in August. The Public Records Policy is being updated to include specifics on records retention schedules.
