

2024 BUS NETWORK REDESIGN

ACCESS

Service description

- Access is VRT's complementary paratransit service, providing service within ¼ mile on either side of fixed bus routes
- Designed to complement fixed-route and on-demand bus systems, this service is available to people who are unable to utilize the fixed-route or on-demand bus systems because of a disability
- Access is a curb-to-curb transit service for the cities of Boise, Garden City, Nampa, Caldwell, and Meridian, offering service with the same hours as the bus system
- Under the network redesign, the Access service area will be adjusted to match the new locations of the routes
- In areas where bus routes will be eliminated, Access service will also be eliminated; riders will be able to use the new Beyond Access service
