RE: RFP ST-BASE-OPS-26-4
ITEM: Acquisition of Service Beyond Access
Closes: July 31, 2026

ADDENDUM #1 Questions and Answers

Addendum #1 for Valley Regional Transit **Request for Proposal ST-BASE-OPS-26-4, Acquisition of Service Beyond Access** is hereby made part of the project requirements and contract documents for the referenced project. Please note, failure to acknowledge this Addendum does not relieve you from fulfilling the Addendum requirements.

The following questions have been addressed and now part of the procurement process:

Questions and Answers:

1. **Question:** If the notice to proceed is August 12, 2026, is the start date for providing the service October 1, 2026, to include having drivers complete the VRT training for drivers and staff?

Answer: The start date is based off VRT Board approval and ensuring enough time to get Offerors prepared to start operating service.

2. **Question:** Are there providers currently under contract for this service that are not part of this RFP? If so, are they under the same parameters noted in this RFP specifically regarding the revenue hours of 7:00 am through 6:00 pm?

Answer: No.

3. **Question:** Will Offeror and VRT be able to reasonably modify the service to be provided or the customer base to be served through a contract amendment document?

Answer: No, services are to be operated as described in Exhibit A of the RFP.

4. **Question:** What is the average trip distance?

Answer: FY25 average trip distance was 10 miles

5. **Question:** What is the average trip distance for a trip using a mobility device (wheelchair)?

Answer: This data is not tracked.

6. **Question:** What is VRT's current cost per trip?

Answer: The average cost per trip in FY25 was \$25.21

7. **Question:** Would VRT allow the Offeror to administer the training of their operators and staff?

Answer: This could be discussed during contract negotiations.

8. **Question:** If Offeror awarded is based in Canyon County will VRT provide parking for vehicles serving Ada County in a secure VRT facility?

Answer: This could be discussed during contract negotiations.

9. **Question:** What are VRT's required performance standards such as on-time performance, acceptance rates, etc.?

Answer: VRT does not have required on-time performance or acceptance rates.

10. **Question:** Can VRT provide the current performance achieved for the last 12 months?

Answer: The request is too broad for VRT to respond. The question does not identify the specific performance data being requested.

11. **Question:** Can VRT provide a daily vehicle count by hour to understand the vehicle usage in a typical week of service?

Answer: Data is not tracked by hour. Beyond Access averages 10 buses in service per day.

12. **Question:** Does VRT intend to combine Paratransit services with Beyond Access?

Answer: Beyond Access is a stand-alone service. VRT Access and VRT On-Demand services are not included in this procurement.

13. **Question:** Can VRT provide information on the VRT provided fleet, including year, engine type, fuel type, current odometer reading, and average miles per year. Can VRT provide bidders with the vehicle replacement schedule for these vehicles?

Answer: VRT will provide this information to any Offeror utilizing the VRT Shared Vehicle Agreement for the Beyond Access service.

14. **Question:** Can VRT provide bidders with the wage scale for Canyon County operators who drive the same type of vehicles for the current On-Demand Service?

Answer: Beyond Access drivers do not work for the Contractor that operates VRT On-Demand services.

15. **Question:** Can VRT confirm the total number of revenue hours for Beyond Access?

Answer: Beyond Access operated 20,203 revenue hours in FY25

16. **Question:** To ensure that all bidders have the same information as readily available to the current incumbent Offeror(s) and in an effort to provide maximum cost savings to VRT and assist vendors in assessing system trip-making patterns, we would like to receive the following data in excel for a recent seven-day period. We would like this data to be drawn from a representative week for the service, which excludes holidays or unusual trip making patterns associated with adverse weather or special events.

a. **Origin and destination for each scheduled trip**

Answer: See Attachment A, with redacted information

b. **Final status of each scheduled trip (provided, canceled or no showed)**

Answer: See Attachment A

c. **Scheduled and actual pick up and drop off times for each performed and no showed trip**

Answer: See Attachment A

d. **What categories of riders and assistance are tracked by VRT**

Answer: See Attachment A

e. **Number of trips denied**

Answer: See Attachment A

f. **Number of complaints received**

Answer: No complaints during this time period

17. **Question:** What is the maximum number of trips performed in one day? Can this be broken down by Canyon and Ada County?

Answer: In FY25 highest ridership day was 199, daily average is 146.

18. **Question:** Will VRT include a provision that provides price adjustments if VRT makes changes to the scope of work, service hours requested, wage increases necessary for Offeror to recruit and retain qualified employees, or in response to a federal or state emergency (pandemic, etc.)?

Answer: This could be discussed during contract negotiations.

19. **Question:** If VRT and awarded Offeror, during contract negotiations, do not come to a mutual agreement on items considered for negotiation do both parties have the option to terminate negotiations and not proceed with contract?

Answer: Yes

20. **Question:** If VRT can terminate contract at any time in VRT's best interest, will VRT provide 60-day prior written notice, and payment of Offerors reasonable close out costs?

Answer: This can be discussed during contract negotiations.

21. **Question:** If Offeror uses VRT vehicles and the vehicles are not available due to routine or large maintenance needs does VRT provide backup vehicles?

Answer: Yes.

22. **Question:** How much time does VRT estimate it will take to install the VIA technology and two-way radios?

Answer: Time is dependent on Offeror fleet size and availability. Hardware will take up to three days to install and radios will take up to two days to install. Work could be scheduled concurrently, depending on installer availability.

23. **Question:** How much time is involved in new hire training for operators and staff? Is the training available on demand for new hires or could there be a wait time and if so, how long?

Answer: New hire training is a minimum of 56 hours. VRT will schedule training as soon as time permits, but could be up to a two week wait, depending on staff schedules.

24. **Question:** How many Offerors are currently being used to carry out this service in 2026? How many revenue hours did VRT directly operate year to date?

Answer: Two. Beyond Access has operated 13,341 revenues hours between 10/1/2025 and 6/30/2026

25. **Question:** What are the following statistics for the past 12 months of service: VRT does not separate metrics between counties. Metrics in Attachment B are for FY25.

a. **What were the revenue hours in Canyon County?**

Answer: See Attachment B – Service Metrics, not reported by County

b. **What were the non-revenue hours in Canyon County?**

Answer: See Attachment B – Service Metrics, not reported by County, reported as Deadhead Hours

c. **What were the revenue hours in Ada County?**

Answer: See Attachment B – Service Metrics, not reported by County

d. **What were the non-revenue hours in Ada County?**

Answer: See Attachment B – Service Metrics, not reported by County, reported as Deadhead Hours

e. **What was the number of trips by origin in Canyon County?**

Answer: See Attachment B – Service Metrics

f. **What were the number of trips by origin in Ada County?**

Answer: See Attachment B – Service Metrics

g. **What was the average deadhead per trip provided in Canyon County?**

Answer: See Attachment B – Service Metrics, not reported by County, This data is not tracked per trip, reported as Deadhead Miles.

h. **What was the average deadhead per trip provided in ADA County?**

Answer: See Attachment B – Service Metrics, not reported by County, This data is not tracked per trip, reported as Deadhead Miles.

i. **What was the average mileage per trip provided in Canyon County?**

Answer: See Attachment B – Service Metrics, not reported by County

j. **What was the average mileage per trip provided in ADA County?**

Answer: See Attachment B – Service Metrics, not reported by County

k. **What was the average mileage per trip crossing over county lines?**

Answer: This data is not tracked

l. **What were the peak hours for trips provided?**

Answer: AM Peak Hour 10:00 am; PM Peak Hour 1:00 pm. Data for FY25 covers service hours of 7:00 am to 6:00 pm.

26. **Question:** What is the minimum number of hours worked for operator to receive a 30-60 minute lunch break?

Answer: Lunch breaks are scheduled for any shift over six (6) hours.

27. **Question:** What was the FY26 Budget and what is the budget for FY27? Were the parameters of those contract(s) the same as the parameters set forth in this RFP?

Answer: FY26 budget is \$ \$1,062,215. FY27 has not been finalized. It is estimated at \$1,145,692.

28. **Question:** If VRT remains a direct operator for the Beyond Access program will VRT compete for available trips?

Answer: Scheduling software determines where trips are scheduled, bases off Offeror availability. Offerors do not compete for trips. VRT does not intend to directly operate Beyond Access service.

29. **Question:** Is the optimization used by VIA to limit number of miles also going to use lowest cost Offeror? Is volume of trips inconsistent during the required hours if there are multiple Offerors?

Answer: Trip optimization is based on Offeror availability. Trip optimization has nothing to do with an Offeror's reimbursement rate. I don't understand second part question.

30. **Question:** If Offeror hires two operators to fill recurring trip schedules and trains two backup operators to fill in for sick leave or vacation time will Offeror receive the recurring trips that normally go to their recurring operators?

Answer: Recurring trips are not automatically assigned to operators with capabilities of the scheduling software. Relief/backup operators will be assigned to the existing shift already built for driver that is out sick or on vacation.

31. **Question:** Does the reference to a material increase or decrease in cost mean that the rate per revenue hour would be adjusted higher or lower mid contract year? Would the higher fuel costs that were seen in FY26 starting in March be an example of this adjustment? Would the same be true for higher fleet insurance or health benefit cost increases? What would be some examples that VRT would deem a reason for a material decrease in cost?

Answer: No. The purpose of this provision is to establish the process for mutually agreed upon contract modifications. Any change to the contract, including any associated increase or decrease in cost, must be made in writing and approved by authorized representatives of both parties.

32. **Question:** If the Offeror resides in Canyon County and prefers to provide trips in Canyon County is this acceptable? If Offeror is willing provide trips to Ada County that originate in Canyon County and provide trips in Ada County until the return trip to Canyon County is that acceptable? Is it anticipated that there will be a Offeror(s) who reside in Ada County that will provide trips that originate from Ada County?

Answer: It is expected that the scheduling software will assign first trip and last trip closest to the location where vehicle starts and ends shift (Ada or Canyon County). All other trips will be booked by scheduling software based off the algorithms already set. VRT will not guarantee all trips for Offeror will remain in one county.

33. **Question:** What is the schedule and time involved for the mandatory safety and training meetings?

Answer: An annual schedule will be provided for monthly safety training meetings. Meetings are scheduled for one hour, but could go longer depending on training topics or attendee participation.

34. **Question:** If Printing and Postage are Allowable Budget Expenses what are the estimated quantities of materials the Offeror is to provide for this service? Is Beyond Access branding expected to be placed on the outside of each vehicle at Offeror cost? Will VRT provide business cards with VRT logo/customer service number to be handed out by Offeror to avoid having passenger call Offeror?

Answer: VRT will provide cards for Offerors that include all VRT contact information. VRT does not expect any material related to Beyond Access service to be printed or mailed by Offeror. Vehicle branding can be discussed during contract negotiations.

35. **Question:** What are the estimated hours involved for the outreach events related to the Beyond Access Service, distributing materials to the public, as this will have a direct impact on the revenue rate per hour and fully allocated cost in the budget requested?

Answer: VRT does not expect Offeror to attend any outreach events. Beyond Access materials that would be distributed to passengers would occur during revenue hours on buses.

36. **Question:** Is the annual budget provided by VRT for the October 1st start of the fiscal year based on the Offeror estimated revenue hours and operating budget provided in February? If so, Is VRT obligated to ensure the revenue hours provided in the RFP?

Answer: Annual budget is determined by the VRT Board of Directors in August for fiscal year service that starts October 1. It is determined by local funding contributed by funding jurisdictions and available federal match. VRT is only obligated to operate within budget parameters approved by the Board, not what is estimated in RFP.

37. **Question:** If Offeror does not receive non-federal grant funding to provide 5310 service to large urban, small urban or rural areas directly then does the 80% reimbursement rate not apply to Offeror and local match funding is not required by Offeror?

Answer: If Offeror does not received any non-federal grant funding VRT will determine amount of service to provide based off funding described in Question 36.

38. **Question:** Is the VRT monthly service metrics data the backup for the invoicing? Is there a process in place if Offeror metrics are different from VRT reports? If VRT technology goes offline what is the process to continue to provide and/or bill for trips manually?

Answer: Yes. If technology goes offline, VRT will work with the Offeror to track correct data for billing purposes. This is discussed during contract negotiations.

39. **Question:** Can VRT provide a sample income statement report?

Answer: No. VRT does not require a specific income statement format and, therefore, a sample will not be provided. A standard income statement generated from the Contractor's accounting system is acceptable, provided it meets the requirements of the RFP.

40. **Question:** Does VRT software calculate the revenue hours, miles and trips sent to Offeror for Item #8 form to be completed by Offeror? If Offeror not discrepancy how it this handled?

Answer: Yes. Refer to question 38 regarding discrepancies.

41. **Question:** Is there bonding associated with the Acquisition of Service contracts once awarded?

Answer: There is no bond requirement for this solicitation.

42. **Question:** Are there any potential delays to the given timeline noted in the RFP?

Answer: Not at this time.

43. **Question:** The Prospective Offeror's duties are split, with dispatching and scheduling remaining with VRT. What formal process will exist for the Offeror to provide operational feedback regarding scheduling, routing, and dispatching efficiencies? How will disagreements regarding operational feasibility be resolved?

Answer: This can be discussed during contract negotiations.

44. **Question:** Can the Prospective Offeror initially commit to a smaller fleet and staffing level and expand capacity over time as operational experience and service demand increase?

Answer: Yes.

45. **Question:** If the Offeror commits to a specific number of daily revenue vehicles or daily driver hours, may those numbers be adjusted downward during the contract with VRT approval should service demand or operational conditions change?

Answer: Yes, with advanced notification.

46. **Question:** Are all the questions and answers from Addendum #2 of the RFP ST-BASE-OPS-26-1 still be the same for this RFP. If not, can you disclose which answers might be different?

Answer: No. This is a separate procurement. The questions and answers issued under Addendum #2 for RFP ST-BASE-OPS-26-1 do not apply to this RFP.

47. **Question:** When the Offeror submits the annual operating budget each February, is the budget intended primarily for planning purposes, or may it result in changes to the approved revenue-hour reimbursement rate?

Answer: Planning purposes only. Reimbursement rate is determined by Exhibit B submitted by Offeror.

48. **Question:** If actual operating costs exceed the submitted annual operating budget due to increased service demand, inflation, insurance, labor costs, or other unforeseen operating expenses, what mechanism exists for revising the budget or revenue-hour reimbursement rate?

Answer: The Offeror is responsible for developing a proposal that reflects its anticipated costs of providing the services described in the RFP. Any change to the resulting contract, including compensation, would be subject to the terms and conditions of the contract and any mutually agreed upon written contract amendment.

49. **Question:** If the Offeror has the ability to provide additional drivers and vehicles beyond the initially proposed capacity, what process exists for increasing the approved number of daily revenue vehicles or driver hours during the contract term?

Answer: This will be discussed during contract negotiations.

50. **Question:** What is the expected average number of revenue hours each vehicle will operate per day?

Answer: Driver revenue hours are determined by Exhibit B submitted by Offeror.

51. **Question:** Does VRT anticipate Beyond Access ridership growth during the initial contract term, and if so, how will additional service capacity be allocated among contracted providers?

Answer: No.

52. **Question:** Can VRT provide historical information on denied trips and anticipated future service demand? This information will help Offerors prepare accurate staffing and fleet plans.

Answer: Historical information can be found in Attachment B – Service Metrics.

There are no other changes at this time.

Attachment A - Trip Representation
June 15 - June 19
