ADDENDUM #2 Questions and Answers

Addendum #2 for Valley Regional Transit **Request for Proposal ST-BASE-OPS-26-2, NEMT Service Provider for Rides 2 Wellness Service** is hereby made part of the project requirements and contract documents for the referenced project. Please note, failure to acknowledge this Addendum does not relieve you from fulfilling the Addendum requirements.

The following Questions have been addressed and now part of the procurement process:

Questions and Answers:

1. **Question:** Deadhead mileage: I don't Refer to a line for deadhead/repositioning miles (driving to the next pickup after a drop-off with no passenger) in the Exhibit B rate matrix. Should that be built into the boarding fee or per-mile rate, or is there another way it gets covered?

Answer: Cost for deadhead mileage should be considered in your per mileage reimbursement rate.

2. **Question:** No-shows: Exhibit B has a same-day cancellation fee per passenger, but nothing specific for no-shows where the rider just isn't there at pickup. Do those fall under the cancellation fee, or are they handled some other way?

Answer: A no-show falls under the same day cancellation fee.

3. **Question:** Payment timing: the RFP mentions payment within 30 days of invoice, but also says invoices are processed bi-weekly. Does each invoice run its own 30-day clock from when it's submitted, or does payment actually go out on the bi-weekly processing dates?

Answer: VRT's payment terms are net 30. We process payments on a biweekly payment cycle and make every effort to pay all properly submitted invoices within 30 days of receipt. The exact payment date may vary depending on when the invoice is received relative to the payment cycle.

4. **Question:** Adding wheelchair/accessible service later: if a provider bids ambulatory only to start (marking Accessible as N/A), is there a way to add that service and pricing down the road once awarded, or does it have to be part of the original bid?

Answer: It should be part of the original bid.

5. **Question:** Scaling up during the contract: is there a process for adding vehicles/drivers mid-contract if volume grows, or is that locked in based on what's submitted with the initial qualification form?

Answer: Drivers and vehicles can be added or removed anytime during the contract.

6. **Question:** What is total membership for this program and what number is ambulatory and what number needs accommodation such as a wheelchair or mobility device per county?

Answer: This program is not membership based; it is open to the public. Refer to table below for Ambulatory and Accessible ride breakout by county.
